

What is Hemophilia?

Hemophilia is an inherited blood disorder in which one or more vital clotting factors are deficient or lacking completely. It poses special problems for the affected individual.

Treatments and research are costly!

The cost of treatment prevents many from obtaining adequate care.

THE MIDWEST HEMOPHILIA ASSOCIATION (MHA) WAS FORMED IN 1990 TO PROMOTE AWARENESS, PROVIDE GROUP SUPPORT, TO EDUCATE, AND TO BE AN AVENUE OF COMMUNICATION FOR THE BLEEDING-DISORDER COMMUNITY.

THE MHA IS AN ALL-VOLUNTEER ORGANIZATION. FUNDS RAISED IN ITS ANNUAL GOLF TOURNAMENT HELP MEMBERS WITH BLEEDING DISORDERS ATTEND EDUCATIONAL SEMINARS, ANNUAL CONFERENCES, AND PROVIDES SUMMER CAMP FOR THE CHILDREN. THE CAMP EDUCATES THE CHILDREN ON HOW TO SELF-INFUSE THEIR MEDICINE AND SHARE EXPERIENCES WITH OTHERS THAT HAVE THIS CONDITION. CURRENTLY, THERE IS NO CURE FOR HEMOPHILIA; AND THE CONDITION REQUIRES LIFE-LONG TREATMENT.

YOUR PARTICIPATION AND SPONSORSHIP IN THE GOLF TOURNAMENT IS GREATLY APPRECIATED.

SINCERELY,

MHA
BOARD

**Thank You for
Your Support!**
